

Photo Mugs from Fun Fotos To Go

Space and Technical Needs

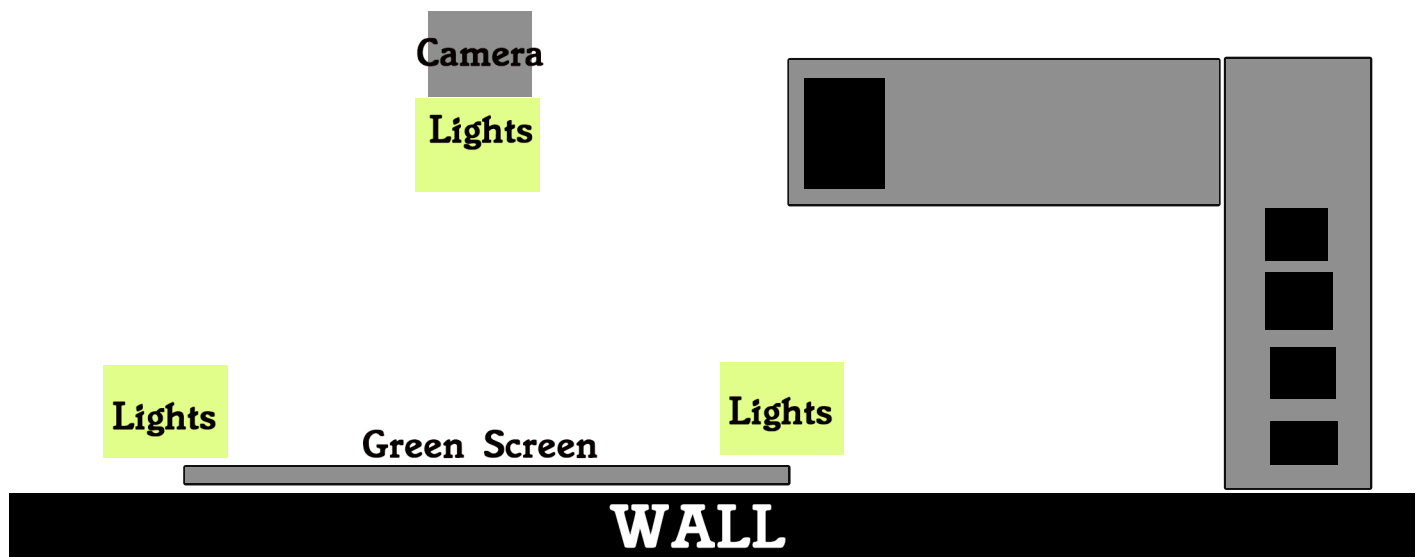

2 6' or 8' banquet style tables

10' x 20' space or larger

10x10 for photos

10.x10 for mugs/presses/printer

2 Separate Electrical Outlets, preferably on different circuits

We can be fairly flexible, but this layout works well to accomodate a line for picking up mugs and good traffic flow from photo to impression.
